Tells Mothers What To Do For Delicate Children.

"My little boy has been rather delicate for a long time. He was always very pale and his appetite was poor. Several people recommended 'Vinol.' I gave it to him and he took it willingly, as the taste is delicious. In a short time I noticed a great improvement in his appetite. He soon had more color in his cheeks. He is now well like other children and romps about every afternoon after school. I am so happy with what Vinol did for my little boy, that I want every mother to know about it."—Mrs. C. R. Appligate, Dayton, Ohio.

ELECTRIC SIGNS!

The distinguishing air of quality which a first-class Electric Sign gives to a store is the element which gives a sign its greatest value as an advertising medium and investment. The impression it makes is good. It blazes forth to the public that there is business enterprise, merchandise and methods up-to-date. It affects the entire atmosphere of the business district. The stranger says, "It is a live town," and publishes it abroad. It is the Sign of the Times.
